ASA(CW) Priorities

- Upgrade the Nation's waterways and ports to strengthen supply chains and economic growth

- Build innovative, climate-resilient infrastructure to protect communities and ecosystems

- Modernize civil works programs to better serve the needs of disadvantaged communities

- Invest in science, research and development to deliver enduring water-resource solutions

- Strengthen communications and relationships to solve water resource challenges

Ongoing Initiatives

- Water Supply
- Drought Guidance Memo – Support of Drought-Resilient communities
- WRDA 2020, Section 221 Report on Water Supply as a mission
- Modernize the Civil Works Program
 - Update to Tribal Consultation Policy
 - Develop comprehensive guidance on the Tribal Partnership program
 - Potential rulemaking on the Regulatory Programs' implementation procedures for Section 106, National Historic Preservation Act
 - Potential rulemaking to develop implementation procedures for principles, requirements, and guidelines
 - Finalize Environmental Justice policy, including definition for purposes of Section 160 of WRDA 2020 “economically disadvantaged community”.
